WORK EXPERIENCE

Competent Swimming

Senior Software Engineer

Birmingham, UK

May 2025 – October 2025

- Built and launched a swimming lesson booking platform using React, Supabase and Stripe, gaining the first 50 users in the first 2 weeks
- Reduced manual scheduling time for instructors by 70 percent through an automated lesson allocation system
- Increased lesson bookings by 45 percent in the first month by introducing a three sided dashboard for swimmers, instructors and administrator
- Improved user satisfaction by conducting interviews with 15 parents and students and implementing the top 5 requested features

“El-Yurt Umidi” Foundation

Data Analyst Intern

Tashkent, Uzbekistan

August 2025 – September 2025

- Developed an AI model that analysed more than 500 social media posts from scholarship holders and delivered insights that improved content engagement strategy for the foundation
- Analysed alumni data for over 300 graduates across 15 countries and presented findings that influenced future scholarship country allocation decisions
- Built a Telegram booking bot that handled more than 200 onboarding appointments, cutting waiting times for students and staff by more than 60 percent

VOLUNTARY EXPERIENCE

El Yurt Umidi Foundation

Volunteer Team Lead at International Scholarship Awards Ceremony

Tashkent, Uzbekistan

September 9, 2025 – September 16, 2025

- Led a team of 12 volunteers during the International Scholarship Awards Ceremony attended by more than 500 guests, ensuring smooth event coordination
- Managed task distribution, guided volunteers, and maintained direct communication with organising staff to keep the event running on schedule
- Facilitated international guests and scholarship recipients throughout the event, enhancing guest experience and strengthening the professional image of the foundation
